

SAFETY DEVICES

Standing out is not a matter of pride when it comes to safety. Reflexallen offers the widest range of safety signs for heavy vehicles and trailers available in the market. Made with tested and reliable materials of the highest quality, our products guarantee visibility in all road conditions. In other words, be visible, be safe!

INDEX

GENERAL MARKINGS

ECE 70.01 Rear and side marker boards for trucks and trailers	108
Exceptional transport vehicles	116
Rear reflecting panels for protruding loads	118
Speed limits	122
Waste transports	125
Night parking safety signs	126
Multifunction safety sign	127
Impact proof stripes for hydraulic tailgates	129
Other markings devices	130
ECE 69/69.01 Slow moving triangle	135
Devices for agricultural vehicles devices	137

CONSPICUITY TAPES

ECE 104, ECE 48, Conspicuity stripes	144
High Intensity markers for vehicles	151
High Intensity markers for containers	153
Devices for containers	154
Industrial signs	155
Transport of in-house goods - Transport of third party goods	156

A.D.R. EQUIPMENT

A.D.R. neutral devices	160
Embossed A.D.R. devices	163
Interchangeable A.D.R. devices with flat numbers according to A.D.R. 2019	165
Embossed flat numbers	167
Spares for A.D.R. signs	168
New sign holder	169
Interchangeable A.D.R. device for UK market	172
Labels conforming to A.D.R., R.I.D., I.M.O., I.A.T.A. regulations for vehicles, containers and package marking	176
Safety equipments according to A.D.R. regulation	186
A.D.R. emergency spare parts	194

ACCESSORIES

Fire Extinguisher cabinets	200
Energy efficient led rotating beacons	201
Carbonlux work lights	203
Interior led lighting	205
Energy efficient rotating beacons	206
Reflector	208

INDICE

PANNELLI SEGNALETICI

<i>ECE 70.01 Pannelli posteriori e laterali per motrici e rimorchi</i>	<i>108</i>
<i>Segnalazione per trasporti eccezionali</i>	<i>116</i>
<i>Pannelli per carichi sporgenti</i>	<i>118</i>
<i>Limiti di velocità</i>	<i>122</i>
<i>Pannello multifunzione</i>	<i>127</i>
<i>Pannelli speciali</i>	<i>130</i>
<i>ECE 69/69.01 Triangolo per mezzi lenti</i>	<i>135</i>
<i>Pannelli retroriflettenti per la segnalazione di attrezzature agricole</i>	<i>137</i>

NASTRI SEGNALETICI

<i>ECE 104, ECE 48, Strisce segnaletiche di sicurezza</i>	<i>144</i>
<i>Dispositivi rifrangenti per la presenza di cassonetti per rifiuti</i>	<i>154</i>
<i>Nastro segnaletico industriale</i>	<i>155</i>
<i>Trasporto cose conto proprio - Trasporto cose conto terzi</i>	<i>156</i>

EQUIPAGGIAMENTO A.D.R.

<i>Dispositivo A.D.R. neutro</i>	<i>160</i>
<i>Dispositivo A.D.R. imbossato</i>	<i>163</i>
<i>Dispositivo A.D.R. intercambiabile a tessere mobili secondo la normativa A.D.R. 2019</i>	<i>165</i>
<i>Numeri intercambiabili imbossati</i>	<i>167</i>
<i>Componenti per segnali A.D.R.</i>	<i>168</i>
<i>Nuovi supporti</i>	<i>169</i>
<i>Segnali a norme A.D.R., R.I.D., I.M.O., I.A.T.A., per veicoli, contenitori e imballi</i>	<i>176</i>
<i>Equipaggiamento A.D.R.</i>	<i>186</i>
<i>Articoli per dotazioni di emergenza A.D.R.</i>	<i>194</i>

ACCESSORI

<i>Contenitore per estintori</i>	<i>200</i>
<i>Girofari led a basso consumo</i>	<i>201</i>
<i>Fari da lavoro carbonlux</i>	<i>203</i>
<i>Plafoniera led</i>	<i>205</i>
<i>Girofari basso consumo</i>	<i>206</i>

SOMMAIRE

PLAQUES DE SIGNALISATION

ECE 70.01 Plaques de signalisation arrière et laterale pour camions et remorques	108
Signalisation des convois exceptionnels	116
Plaque grande longueur	118
Limitation de vitesse	122
Signal de sécurité multifonction	127
Plaques Particulières	130
ECE 69/69.01 Triangle pour véhicules lents	135
Panneaux pour convois agricoles	137

BANDES RETRO REFLECHISSANTES

ECE 104, ECE 48, Lignes de sécurité	144
Bandes alternées	151
Ruban industriel signalétique	155

EQUIPEMENT A.D.R.

Rectangles d'identification retro réfléchissants	160
Plaques standards a numeros emboutis	163
Systeme à usage multiples A.D.R. 2019	165
Pieces de rechange	167
Supports pour rectangle d'identification	168
Nouveaux supports	169
Symbole danger vehicule	176
Valise de sécurité A.D.R. standard	186
Autres produits pour valises de sécurité	194

ACCESSOIRES

Coffres à extincteur	200
Led gyrophares	201
Feux de travail carbonlux	203
Éclairage intérieur	205
Gyrophares	206
Catadioptrés	208

INHALT

ALLGEMEINE MARKIERUNG

ECE 70.01 Heck- und Seitwarntafel für Fahrzeuge und Anhänger	108
Warntafeln für Sondertransporte	116
Warntafeln für Überbreite und Überlänge	118
Geschwindigkeitsschilder	122
Warntafeln für Abfalltransporte, retroreflektierend weiß Typ I	125
Nachparkwarntafeln für Fahrzeuge	126
Multifunktions-sicherheitszeichen	127
Warnmarkierungen für Hubladebühnen gemäß § 53b StVZO Typ II	129
Spezialwarntafeln	130
ECE 69/69.01 Tafeln für langsam fahrende Fahrzeuge und ihre Anhänger	135
Warntafeln für Land und Forstwirtschaft	137

REFLEKTIERENDE BÄNDER/STREIFEN

ECE 104, ECE 48, Sicherheitsmarkierung	144
Warnmarkierungen für Fahrzeuge gem. § 35 StVZO	151
Warnmarkierungen für Container	153
Industriewarnstreifen	154

A.D.R. AUSRÜSTUNG

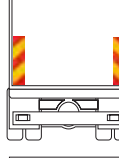

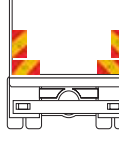

A.D.R. Gefahrgutwarntafeln	160
Hohlgeprägte A.D.R. Gefahrgutwarntafeln	163
A.D.R. Gefahrgutwarntafel mit austauschbaren Ziffern nach A.D.R. 2019	165
Austauschbare Ziffern	167
Zubehör für Gefahrgutwarntafeln	168
Neue halter	169
Gefahrzettel gemäß GGVS/A.D.R.	176
Schutzausrüstung gemäß GGVS/A.D.R.	186
Ersatzteile und Zubehör für A.D.R. Schutzausrüstungen	194

ZUBEHÖR

Feuerlöscherkasten 6 Kg.	200
Energiespardrehrundumleuchten	201
Arbeitsleuchten	203
Interne beleuchtung	205
Energiespardrehrundumleuchten	206
Rückstrahler	208

ECE 70.01 PACKAGING

It comes with a hole for exhibitors

Reflexallen
ECE 70.01
ACCORDING TO REGULATION ECE - 48

It was October 1988, when finally, the first Reflexallen ECE-70 boards entered production. Since day one, it was clear to me that we could not manufacture these products manually, the adhesive surfaces must not be touched by the human hand, precise trimming was necessary to avoid an easier peel-off of the films, no bubbles remaining to avoid issues in winter and summer seasons, aluminum plates completely degreased, together with an uncompromised level of quality for each and every raw material contained within this safety critical product.

After months of attempts we were ready, aiming to become one of the most (if not the most) relevant manufacturer of these products, I constantly kept reminding myself the key drivers must be the safety and long-term reliability, in turn the heavy duty vehicles must be seen in any weather condition – this is of paramount importance and thus classifying these products as "Safety Devices", a terminology widely used today.

I was so convinced about my ideas in terms of Safety on the Roads, that the majority of the products we designed and developed over the last 30 years are considered safety critical. Today the Group has an incredible portfolio of products manufactured in our 10 plants all over the world, but when my mind goes to those days, where in a garage our first products saw the light, the emotion and satisfaction felt are still vivid in my mind. Today, from our full automated production lines, we produce ECE-70 marker boards, considered by hundreds of thousands of drivers, the best in class. This is an honor and a privilege for us.

I can tell you the passion and dedication we apply every day in producing these safety devices is still the same as 30 years ago. Checked and packed one by one, in the spirit of our zero defects way of life.

Renzo Gibellini
(Reflexallen CEO & Founder)

RR3 Version: Yellow Retro-Reflective Class 3
+ Red Transparent Printed

RR Version: Yellow Retro-Reflective Class 3
+ Red Reflective Class 1

RF Version: Yellow Retro-Reflective Class 3
+ Red Fluorescent

APPLICATION INSTRUCTIONS ISTRUZIONI PER L'APPLICAZIONE INSTRUCTIONS D'APPLICATION / VERARBEITUNGSANLEITUNG

SELF-ADHESIVE VERSION ONLY:

- 1) For a better adhesion a slight grinding of the surface where you will apply the markers is recommended.
- 2) For a deeper cleaning, the area should be treated with a solvent (suitable for painted surfaces). Please make sure the solvent is fully evaporated before proceeding!
- 3) Complete the cleaning with a clean cloth and alcohol. Before the application, make sure the surface is completely dry and free of dust, oil, fats, silicon, and other impurities.
- 4) Apply the markers at an ambient temperature between 12° \square 30°C.
- 5) To ensure accurate alignment, help yourself with paper tape. Position the marker along the paper tape and without touching the adhesive surface, remove step by step the protective back-paper. Using a squeegee, apply with the needed pressure, avoiding air bubbles.
- 6) During the application please make sure not to stretch the marker in any direction to avoid an improper detachment throughout the lifetime of the marker itself.

SOLAMENTE PER LA VERSIONE ADESIVA:

- 1) Per una migliore adesione si consiglia una leggera levigatura della superficie su cui verranno applicati i pannelli.
- 2) Per una pulizia più profonda, l'area deve essere trattata con un solvente (adatto per superfici verniciate). Assicurarsi che il solvente sia completamente evaporato prima di procedere!
- 3) Completare la pulizia con un panno pulito e alcool. Prima dell'applicazione, assicurarsi che la superficie sia completamente asciutta e priva di polvere, olio, grassi, silicio e altre impurità.
- 4) Applicare i pannelli a una temperatura ambiente tra 12° - 30° C.
- 5) Per far sì che i pannelli siano perfettamente allineati aiutatevi con il nastro di carta. Posizionare il pannello lungo il nastro di carta e senza toccare la superficie adesiva, rimuovere passo dopo passo la carta protettiva. Utilizzare una spatola per evitare la formazione di bolle d'aria.
- 6) Durante l'applicazione assicurarsi di non tirare o staccare anche parzialmente il pannello.

UNIQUEMENT POUR LA VERSION ADHÉSIVE :

- 1) Pour une meilleure adhérence, nous recommandons un léger ponçage de la surface sur laquelle les panneaux seront appliqués.
- 2) Pour un nettoyage en profondeur, la zone doit être traitée avec un solvant (adapté aux surfaces peintes). Assurez-vous que le solvant s'est complètement évaporé avant de continuer!
- 3) Terminez le nettoyage avec un chiffon propre et de l'alcool. Avant l'application, assurez-vous que la surface est complètement sèche et exempte de poussière, d'huile, de graisse, de silicone et d'autres impuretés.
- 4) Appliquez les panneaux à une température ambiante comprise entre 12° et 30° C.
- 5) Pour vous assurer que les panneaux sont parfaitement alignés, servez-vous du ruban de papier. Positionnez le panneau le long du ruban en papier et sans toucher la surface adhésive, retirez le papier protecteur étape par étape. Utilisez une spatule pour éviter la formation de bulles d'air.
- 6) Pendant l'application, assurez-vous de ne pas tirer ou même de détacher partiellement le panneau.

NUR FÜR DIE ADHESIVE-VERSION:

- 1) Für eine bessere Haftung empfehlen wir ein leichtes Anschleifen der Oberfläche, auf die die Paneele aufgetragen werden sollen.
- 2) Für eine gründlichere Reinigung muss der Bereich mit einem Lösungsmittel behandelt werden (geeignet für lackierte Oberflächen). Stellen Sie sicher, dass das Lösungsmittel vollständig verdunstet ist, bevor Sie fortfahren!
- 3) Schließen Sie die Reinigung mit einem sauberen Tuch und Alkohol ab. Stellen Sie vor dem Auftragen sicher, dass die Oberfläche vollständig trocken und frei von Staub, Öl, Fett, Silikon und anderen Verunreinigungen ist.
- 4) Die Platten bei einer Umgebungstemperatur zwischen 12 - 30° C auftragen.
- 5) Um sicherzustellen, dass die Paneele perfekt ausgerichtet sind, helfen Sie sich mit dem Klebeband. Positionieren Sie die Platte entlang des Papierstreifens und entfernen Sie das Schutzpapier schrittweise, ohne die Klebefläche zu berühren. Verwenden Sie einen Spatel, um die Bildung von Luftblasen zu vermeiden.
- 6) Achten Sie beim Auftragen darauf, dass Sie nicht am Panel ziehen oder es sogar teilweise abnehmen.

**INSTALLATION INSTRUCTIONS / ISTRUZIONI DI MONTAGGIO
INSTRUCTIONS DE MONTAGE / MONTAGEANLEITUNG**

 The panels must be fixed vertically (5% tolerance) onto the rear side of the vehicle, at no more than 40 cm from the left and right sides. Height above ground (loaded vehicle): not less than 35 cm, not more than 170 cm (A & B configurations see below) or 220 cm (C & D). The panels must be fixed within the rear body of the vehicle, and must not protrude from the vehicle's body itself.

 I pannelli devono essere fissati verticalmente (tolleranza del 5%) sul lato posteriore del veicolo, a non più di 40 cm dai lati sinistro e destro. Altezza da terra (veicolo carico): non meno di 35 cm, non più di 170 cm (configurazioni A e B vedi sotto) o 220 cm (C e D). I pannelli devono essere fissati nella parte posteriore del veicolo e non devono sporgere dal limite di sagoma del veicolo.

 Les panneaux doivent être fixés verticalement (tolérance de 5%) à l'arrière du véhicule, à pas plus de 40 cm des côtés gauche et droit. Garde au sol (véhicule chargé): pas moins de 35 cm, pas plus de 170 cm (configurations A et B voir ci-dessous) ou 220 cm (C et D). Les panneaux doivent être fixés à l'arrière du véhicule et ne doivent pas dépasser de la limite de forme du véhicule.

 Die Paneele müssen senkrecht (5% Toleranz) auf der Rückseite des Fahrzeugs in einem Abstand von höchstens 40 cm von der linken und rechten Seite angebracht werden. Höhe über dem Boden (beladenes Fahrzeug): mindestens 35 cm, höchstens 170 cm (A & B-Konfigurationen siehe unten) oder 220 cm (C & D). Die Verkleidungen müssen in der hinteren Karosserie des Fahrzeugs befestigt sein und dürfen nicht aus der Karosserie des Fahrzeugs herausragen.

CLEANING / PULIZIA / NETTOYAGE / REINIGUNG

 High Pressure Cleaning allowed: Max Press. 80 bar - Max Temp 60° C.
Maintain a minimum of 50 cm distance from the boards, with a ± 5° inclination max of the cleaning jet. The sponge or cloth used must be wet and non-abrasive. Make sure to use a neutral cleaning agent.
SELF-ADHESIVE VERSION ONLY: After application, wait 72 hours before washing.

 Pressione max 80 bar - Temperatura max 60° C
Mantenere ad una distanza di almeno 50 cm e un angolo di 90° (+/- 5°). Non lavare con spugne o spazzole abrasive e utilizzare un detergente neutro.
SOLAMENTE PER LA VERSIONE ADESIVA: Dopo l'applicazione attendere almeno 72 ore prima di lavare.

 Pression maximale de 80 bar - Température maximale de 60°C
Tenir l'embout à au moins 50 cm et sous un angle de 90° (+/- 5°). Ne pas nettoyer avec des éponges ou brosses abrasives et utiliser un détergent neutre.
UNIQUEMENT POUR LA VERSION ADHÉSIVE: Après l'application attendre environ 72 heures avant de nettoyer le véhicule.

 Maximaler Druck von 80 bar - Maximale Temperatur von 60° C. Eine minimale Distanz von 50 cm zwischen Reinigungsdüse und Untergrund. Der Reinigungsstrahl sollte nicht stärker als 90° (+/- 5°) vom rechten Winkel zum Untergrund abweichen. Keine Mittel verwenden, die eine schleifende Wirkung (Nylonbürste) ausüben. Keine Lösemittel (z.B. Farbverdünner) einsetzen.
NUR FÜR ADHESIVE VERSION: warten Sie mindestens 72 Stunden vor dem Reinigen.

EUROPEAN REGULATION / NORMATIVE EUROPEE
NORMES EUROPEENNES / EUROPAISCHE NORMEN

ECE R86

This Regulation applies to vehicles of category T, R and S.

Colours and photometric minimum requirements Each panel or foil shall be according to the specifications of UN Regulation No.70, class 5 or UN Regulation No. 104, class F

- Category T - means any motorised, wheeled or tracked agricultural or forestry vehicle.
- Category R - Agricultural trailer.
- Category S - Interchangeable towed equipment.

ECE 104 - Homologated Class F (E11) 104R-001062

Class F retro-reflective materials shall consist of red and white diagonal stripes each 100 mm wide sloping outwards and downwards at 45°. The basic standard area is a square of 141 mm in length subdivided diagonally into a white half and red half, which represents one standard area.

The minimum length of an element of a retro-reflective marking material shall incorporate a minimum of 9 standard areas above on large vehicles with available mounting space, but may be reduced to a minimum of 4 standard areas on vehicles with limited mounting space.

ECE70.01 - Homologated Class 5 RR (E11) 70R-010002

Class 5 RR:

For special utility vehicles or trailers. The installation of rear marking plates for heavy motor vehicles according to the provisions of this annex is required for vehicles of categories N2 with a maximum mass exceeding 7.5 tonnes and N3 with the exception of tractors for semi-trailers, and for articulated buses of class II and III.

Rear marking plates for motor vehicles or trailers with red and white retro-reflective alternative stripes.

Class 5 devices shall incorporate a minimum of 9 standard areas on large vehicles with available mounting space, but may be reduced to a minimum of 4 standard areas on vehicles with limited mounting space.

The slope of the oblique stripes of the chevron band shall be $45^\circ \pm 5^\circ$. The width of the stripes shall be $100 \text{ mm} \pm 2.5 \text{ mm}$.

Class 5 retro-reflective materials shall consist of red and white diagonal stripes each 100 mm wide sloping outwards and downwards at 45°. The basic standard area is a square of 141 mm in length subdivided diagonally into a white half and red half, which represents one standard area.

VO EU 2015/208 - According to **VO EU 2015 / 208**

This regulation applies to agricultural and forestry vehicles like tractors, trailers and interchangeable towed equipment. Signalling panels which comply with the requirements set out in this Regulation are marked with the number of this Regulation and the name of the manufacturer.

Dimensions, minimum size of the reflecting surface, colour and photometric minimum requirements and identification and marking of signalling panels and signalling foils for vehicles of category S with width exceeding 2,55 m.

Signalling panels or foils of Form A may be combined with lamps, if the surface of the boards covered by the lamps does not exceed 150 cm². Signalling panels which comply with the requirements set out in this regulation are marked with the number of this Regulation and the name of the manufacturer.

TPESC-B - Homologated **TPESC - B 11060**

This regulation refers to complementary markings for first aid vehicles and slow moving vehicles.

The raw material used for this panel is compliant to TPESC-B regulation.

DIN 30710 - According to **DIN30710**

This standard contains the technical safety requirements for work vehicles.

The safety sign consist of white and red oblique stripes, 100 mm wide each, with an outward inclination of 45°.

The standard area consists in a 141mm square divided diagonally in a white and a red half.

StVZO - Homologated **K 553**

Compliant to Annex 7, paragraph 49 of the German Road Traffic Regulation StVZO.

This homologation is not valid for the self-adhesive versions.

Left hand

Turn 90°

Right hand

Statistics in the US have shown that such device (compulsory for all new vehicles from 3/11/92) reduces accidents caused by collision by 16% during the day and 21% at night.
 Source: NHTSA (US National Highway Traffic Safety Association)

In USA è statisticamente provato che con un simile dispositivo (obbligatorio per tutti i nuovi veicoli dal 3/11/92) gli incidenti causati da tamponamento hanno subito una diminuzione del 16% durante il giorno e del 21% durante la notte.

Fonte: NHTSA (US National Highway Traffic Safety Association)

Dans les Etats-Unis les statistiques prouvent que, avec un dispositif de ce type (obligatoire pour tous les nouveaux véhicules à partir du 3/11/92) les accidents causés par tamponnage ont réduit du 16% pendant la journée et du 21% pendant la nuit.

Source: NHTSA (US National Highway Traffic Safety Association)

Statistiken in USA haben bewiesen, dass bei Fahrzeugen mit Konturmarkierungen sich die Unfallhäufigkeit durch Kollision bei Tag um 16 % und bei Nacht sogar um 21 % reduziert. (Unsere Quelle: NHTSA (US National Highway Traffic Safety Association).

GUIDELINES FOR THE MARKINGS APPLICATION REQUIREMENTS
LINEE GUIDA PER I REQUISITI DI APPLICAZIONE
MODALITES D'APPLICATION DE LA BORDURE
RICHTLINIEN FÜR DIE ANBRINGUNG DER MARKIERUNG

Retro-reflective marking materials installed on vehicles may be made up of an element or several elements preferably continuously, parallel or as much as possible parallel to the ground. The same rule applies for tractors, semi-trailers and other vehicle combinations. A combination of vehicles and trailers marked and unmarked in the sense of this regulation is discouraged.

The mounting of the markings should identify as much as possible the entire length and width of the vehicle. "Entire" means at least 80 per cent of the length and/or width. In case of non-continuous strips the distance between single elements should be as small as possible and should not exceed 50 per cent of the shortest element length. Retro-reflective marking materials shall have a minimum height above the ground of at least 250 mm and a maximum height of 1,500 mm. However, 2,100 mm may be accepted in cases where technical conditions forbid the compliance with the maximum value of 1,500 mm. Those installed on the rear of vehicles may be red in colour, those installed on sides of vehicles shall be yellow or white in colour.

(Source: Regulation No. 48 – art. 6.21)

I materiali evidenziatori retroriflettenti installati su veicoli possono essere formati da un elemento o da più elementi preferibilmente continui, paralleli, o il più possibile paralleli, al suolo. La stessa regola vale per le trattrici, i semi rimorchi e altre combinazioni di veicoli. Si sconsiglia una combinazione di veicoli e rimorchi muniti e privi di evidenziatori conformemente a questo Regolamento.

L'applicazione degli evidenziatori deve delineare il più possibile l'intera lunghezza e larghezza del veicolo. Per "intera" si intende almeno l'80% della lunghezza e/o larghezza del veicolo. Nel caso di strisce non continue, la distanza tra i singoli elementi non dovrebbe superare il 50% della lunghezza dell'elemento più piccolo.

I materiali retroriflettenti devono avere un'altezza minima dal suolo di almeno 250mm, ed un'altezza massima di 1500mm. E', tuttavia, possibile accettare un'altezza di 2100mm nei casi in cui le condizioni tecniche impediscano il rispetto del valore massimo di 1500mm.

L'evidenziatore retroriflettente posizionato lateralmente può essere giallo o bianco, quello posizionato posteriormente rosso o giallo.

(Fonte: Regolamento n. 48 – art. 6.21)

La bordure devra être appliquée de manière que la longueur entière du véhicule soit visible - si vu latéralement - et que la largeur entière du véhicule soit visible - si vu postérieurement. Par longueur entière s'entend au moins 80% de la surface; le même principe vaut pour la largeur. La longueur et la largeur du véhicule doivent être perçues le plus possible comme continues. La hauteur minimum du sol devra être de 25 cm. La hauteur maximum du sol devra être de 150 cm; s'il n'est pas possible de se conformer à cette règle à cause des caractéristiques de construction du véhicule, la limite maximum à respecter sera de 210 cm. La distance minimum pour les marqueurs rétro-réfléchissants appliqués à l'arrière et pour chaque feu de stop doit être égale ou supérieure à 20 cm. La couleur pour la partie latérale sera ou jaune ou blanche, pour la partie postérieure rouge.

Le film utilisé pour la bordure doit être homologué.

(Source: Règlement No. 104 - art. 6.21)

Retroreflektierende Markierungsmaterialien an Fahrzeugen können aus einem oder mehreren Teilen bestehen, die vorzugsweise durchgehend, parallel oder möglichst parallel zum Boden anzubringen sind. Die gleiche Vorschrift gilt für Sattelzugmaschinen, Sattelanhänger und andere Fahrzeugkombinationen. Eine Kombination von im Sinne dieser Regelung markierten und nicht markierten Fahrzeugen und Anhängern ist zu vermeiden. Die Markierungen sollten so angebracht werden, dass möglichst die gesamte Länge und Breite des Fahrzeugs kenntlich gemacht werden. Die Angabe gesamt bedeutet, dass mindestens 80% der Länge und/oder Breite markiert sind. Bei unterbrochenen Streifen sollte der Abstand zwischen den einzelnen Teilen so gering wie möglich und nicht größer als 50% der Länge des kürzesten Teiles sein. Retroreflektierende Markierungsmaterialien sind in einer Höhe von mindestens 250 mm und höchstens 1500 mm über dem Boden anzubringen. In Fällen, in denen aus technischen Gründen der Höchstwert 1500 mm nicht eingehalten werden kann, ist auch eine Höhe von 2100 mm über dem Boden zulässig. Die Farbe gelb darf sowohl hinten, als auch seitlich, die Farbe weiß NUR seitlich, die Farbe rot NUR hinten verwendet werden.

SUGGESTED APPLICATIONS / APPLICAZIONI SUGGERITE
APPLICATIONS SUGGEREES / EMPFOHLENE ANWENDUNGEN

**APPLICATION INSTRUCTIONS / ISTRUZIONI PER L'APPLICAZIONE
CONSIGNES D'APPLICATION / APPLIKATIONSANLEITUNG**
**1****2****3****4**

It must be applied when temperature is between 10° and 38°C. Hand wash with sponge, cloth or soft brush using warm water and detergent.

- 1** Remove protective liner (about 10 cm) and tack the tape onto the dry surface.
- 2** Place the tape. Keep the tape in place and remove protective liner.
- 3** Apply pressure using a squeegee along the length of the tape.
- 4** Instructions for curtainsider surfaces. During application place a rigid surface behind the curtainsider. Application underneath belts or buckles is not recommended. Remove protective liner.

Do not overlap sheeting. Joints to be adhered without gaps
Before washing wait 72 hours.

High pressure cleaning instructions:

Maximum pressure 80 bar
Maximum temperature 60° C
Minimum 50 cm distance and a 90° angle (+/- 5°) of cleaning jet from sheeting surface
The cleaner must be wet, non-abrasive, without strong solvents.

Vérifier que la température soit entre 10° et 38°C. Nettoyer la surface avec de l'eau chaude et du savon (ou un détergent).

- 1** Décoller partiellement le protecteur de l'adhésif (10 cm de longueur) et appliquer le début de la bande sur la surface bien sèche.
- 2** Positionner le film. Enlever progressivement le protecteur et placer la bande.
- 3** Finir la pose avec une raclette et appliquer une pression uniforme pour une adhérence totale.
- 4** Consignes d'application pour bâches. Pendant l'application il est conseillé de positionner une surface rigide derrière le bâche. L'application sur les boucles ou les courroies n'est pas recommandée. Décoller le protecteur de l'adhésif.

Ne pas faire de recouvrement. Faire les joints par rapprochement.
Après l'application: attendre environ 72 heures avant de nettoyer le film ou le véhicule.

Consignes de lavage haute pression:

Pression maximale de 80 bars
Température maximale de 60°C
Tenir l'embout à au moins 50 cm et sous un angle de 90° (+/- 5°)
Ne pas nettoyer avec des éponges ou brosses abrasives et utiliser un détergent neutre.

Applicare a temperatura fra i 10° e i 38°C. Lavare accuratamente la superficie con una soluzione di acqua e detergente neutro.

- 1** Rimuovere una piccola sezione del liner (10 cm circa di lunghezza) e far aderire la pellicola alla superficie asciutta.
- 2** Posizionare la pellicola. Mantenere la pellicola in posizione e rimuovere il liner.
- 3** Con l'aiuto di una spatola pressare con forza la bordatura sulla superficie.
- 4** Indicazioni specifiche per l'applicazione sui teloni. Durante l'applicazione posizionare dietro al telone una superficie rigida. Non applicare su borchie, rivetti o anelli. Rimuovere il nastro protettivo.

Non sovrapporre la pellicola. Eseguire le giunzioni mediante accostamento
Dopo l'applicazione: attendere almeno 72 ore prima di lavare.

Istruzioni per il lavaggio ad alta pressione:

Pressione max 80 bar
Temperatura max 60° C
Mantenere ad una distanza di almeno 50 cm e un angolo di 90° (+/- 5°)
Non lavare con spugne o spazzole abrasive e utilizzare un detergente neutro

Temperaturbereich während der Verklebung: +10°C bis +38°C. Die Oberfläche gründlich mit Wasser und einem milden Reinigungsmittel reinigen.

- 1** Schutzpapier (ca. 10cm) von der Folie ziehen und auf die trockene Oberfläche anbringen.
- 2** Folie ausrichten, ggf. mit Klebestreifen an Hilfslinien positionieren und den Folienteil ohne Schutzpapier mit Plastikkrakel andrücken.
- 3** Schutzpapier langsam unter der Folie abziehen und gleichzeitig mit Plastikkrakel andrücken.
- 4** Besondere Anweisungen für die Anwendung auf Planen. Während der Anwendung bitte legen Sie hinter der Plane eine harte Oberfläche. Nicht auf Bolzen, Nieten oder Ringe anbringen. Entfernen Sie das Schutzpapier.

Folie nicht überlappen lassen
Nach der Anbringung: warten Sie mindestens 72 Stunden vor dem Reinigen.

Hinweise bei Reinigung mit Hochdruckreinigern:

Maximaler Druck von 80 bar
Maximale Temperatur von 60° C
eine minimale Distanz von 50 cm zwischen Reinigungsdüse und Untergrund. Der Reinigungsstrahl sollte nicht stärker als 90° (+/- 5°) vom rechten Winkel zum Untergrund abweichen.
Keine Mittel verwenden, die eine schleifende Wirkung (Nylonbürste) ausüben.
Keine Lösemittel (z.B. Farbverdünner) einsetzen.

HOW TO MAKE YOUR ORDER

For a correct order you have to request:

- 1) type of support
- 2) the first and the second position numbers
- 3) quantity (MOQ of 12 pieces)

Example:

ART. **6005/30/1965/L**

6005 = Model
30 = Substance transported
1965 = Substance transported
L = Galvanised steel support

COME EFFETTUARE L'ORDINE

Per ordinare in modo corretto occorre richiedere:

- 1) tipo di supporto
- 2) numerazione della prima e seconda riga
- 3) quantità (ordine minimo 12 pezzi)

Esempio:

ART. **6005/30/1965/L**

6005 = Modello
30 = Sostanza trasportata
1965 = Sostanza trasportata
L = Supporto in lamiera zincata

COMMENT FAIRE POUR EFFECTUER UNE COMMANDE

Pour commander correctement, il faut demander:

- 1) type de support
- 2) numération de la première et deuxième ligne
- 3) quantité (commande minimum de 12 pièces)

Exemple:

ART. **6005/30/1965/L**

6005 = Modèle
30 = Substance transportée
1965 = Substance transportée
L = Support en galva

WIE BESTELLEN SIE RICHTIG

Für einen Auftrag benötigen wir:

- 1) Ausführung z.B. Aluminium oder Stahlblech
- 2) erst- und zweitnummer z.B. 23/1040
- 3) Menge (mindestens 12 Stck)

Beispiele:

ART. **6005/30/1965/L**

6005 = Artikel
30 = Mitgeführte Substanz
1965 = Mitgeführte Substanz
L = Ausführung

in accordance with chapter 5.3.2 of the A.D.R.

INTERCHANGEABLE A.D.R. DEVICE ACCORDING TO A.D.R. 2019

DISPOSITIVO A.D.R. INTERCAMBIABILE A TESSERE MOBILI SECONDO LA NORMATIVA A.D.R. 2019

SYSTEME A USAGES MULTIPLES A.D.R. 2019

A.D.R. GEFÄHRGUTWARNTAFEL MIT AUSTAUSCHBAREN ZIFFERN NACH A.D.R. 2019

6006 SERIES

THE BEST INTERCHANGEABLE DEVICE EVER
(Completely designed by our R&D team)

IL MIGLIOR PANNELLO INTERCAMBIABILE DI SEMPRE
(Interamente progettato dal nostro reparto R&S)

LA MEILLEURE PLAQUE INTERCHANGEABLE DE TOUJOURS
(Projetée entièrement par notre équipe R&D)

DIE INNOVATIVE WARNTAFEL MIT AUSTAUSCHBAREN ZIFFERN
(Von unseren Experten entwickelt)

- 1 Block/release simply by swivelling the turn keys
- 2 The change of numbers is extremely easy
- 3 Each sledge is removable to simplify the change of numbers
- 4 In case of empty transport just place the sledges on the reverse!
- 5 The back face is totally dark, fire resistant for more than the required 15 minutes. No additional covering needed.

- 1 Bloccaggio/sbloccaggio semplicemente ruotando il tourniquet
- 2 Il cambio dei numeri è rapidissimo
- 3 Le slitte sono removibile per facilitare l'inserimento dei numeri
- 4 In caso di trasporto a vuoto è sufficiente fissare le slitte al contrario!
- 5 La facciata posteriore è totalmente nera e resistente al fuoco oltre i 15 minuti richiesti. Non occorre nessuna copertura aggiuntiva.

- 1 Blocage et déblocage facile simplement tournant le tourniquet
- 2 Le changement des chiffres est très simple
- 3 Chaque glissière est amovible pour faciliter l'insertion des chiffres
- 4 Il est suffisant de renverser les glissières en cas de transport vide!
- 5 La face arrière du rectangle est totalement noire, elle résiste au feu plus de 15 minutes demandés par la normative. Aucune couverture supplémentaire est nécessaire

- 1 Einfache Sperrung/Entsperrung durch 2 Schnellverschlüsse
- 2 Je nach Bedarf können die Ziffern einfach und schnell gewechselt werden
- 3 Der Wechselrahmen mit den Ziffern kann ganz schnell abgenommen werden
- 4 Soll die Tafel abgedeckt werden, genügt es den Wechselrahmen mit den Ziffern einfach umzudrehen!
- 5 Die Rückseite der Tafel ist komplett schwarz, feuerbeständig bis zu 15 min

 **NEW COMMUTABLE A.D.R. DEVICE - 4 COMBINATIONS**

Picture	Part No.	Class	Description	Material	Size (mm)	Package
	6006/A/UK	1	A.D.R. device with four different codes combinations	SS	700 x 400	1x

Designed by our R&D team for the safety and the comfort of the driver.

The quickest way to change your identification codes!

A unique design that allows four different combinations.

1st Combination

2nd Combination

3rd Combination

4th Combination

NEW COMMUTABLE A.D.R. DEVICE - 3 COMBINATIONS

Picture	Part No.	Class	Description	Material	Size (mm)	Package
	6006/A/IR	1	A.D.R. device with three different codes combinations	SS	300 x 400	1x

The Tricode board is used for the transport of the Petrol , Diesel and Kerosene.

Constructed using formed 0.8mm thick stainless steel and the best reflective materials to ensure exceptional performance of reflectivity.

A movable internal centre panel allows for 3 different hazchem codes to be displayed.

1th Combination - Petrol

2th Combination - Kerosene

3th Combination - Diesel

INTERCHANGEABLE A.D.R. DEVICE FOR UK MARKET

① INTERCHANGEABLE DIGIT HOLDER

The digit holder is designed to be easily removed, thus allowing the driver to change the Emergency Action Code (EAC) and U.N. Substance identification number (UN No.) on ground level. As an added bonus for vehicles carrying multiple loads, extra panels and digits can be pre-arranged and stored on the vehicle. With the double-sided design, two separate codes can be stored on any one holder (with only one side visible when mounted on the vehicle). There is also an option to lock the digit holder to the main frame - both securing the digits, and ensuring only the driver can access them (lock not included)

② STANDARD A.D.R. HOLDER

This combination holder allows for an Emergency Action Code (EAC) and U.N. substance identification number (UN No.) to be displayed along with the Hazard Warning panel. To secure the removable digit holder, a retaining clip is included at the top. There is a section at the bottom of the holder to support application of a self-adhesive Specialist Advice label c/w telephone number & logo.

③ EXTENDED A.D.R. HOLDER

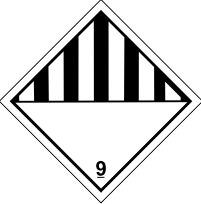

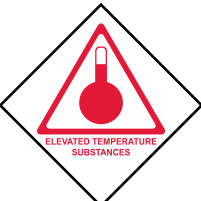

This combination holder is for vehicles carrying products with both a primary and subsidiary risk. The digit holder included is the same as the standard unit, but has a double diamond section to display both of the required Hazard Warning panels. There is also a section at the bottom of the holder to support application of a self-adhesive Specialist Advice label c/w telephone number & logo.

Picture	Part No.	Description	Material	Size (mm)	Package

SAFETY EQUIPMENT ACCORDING TO A.D.R. REGULATIONS

EQUIPAGGIAMENTO A.D.R.

VALISE DE SECURITE A.D.R. STANDARD

SCHUTZAUSRÜSTUNG GEMÄß GGVS/A.D.R.

 **A.D.R. 2019****8.1.5: Miscellaneous equipment and equipment for personal protection**

8.1.5.1: Each transport unit carrying dangerous goods shall be provided with items of equipment for general and personal protection in accordance with **8.5.1.2**. The items of equipment shall be selected in accordance with the danger label number of the goods loaded. The label numbers can be identified through the transport document.

8.3.4: The portable lighting apparatus used shall not exhibit any metal surface liable to produce sparks.

8.1.5.2: The following equipment shall be carried on board the transport unit:

- for each vehicle, a wheel chock of a size suited to the maximum mass of the vehicle and to the diameter of the wheel;
- two self-standing warning signs;
- eye rinsing liquid ⁽¹⁾; and

For each member of the vehicle crew

- a warning vest (e.g. as described in the EN ISO 20471 standard);
- portable lighting apparatus conforming to the provisions of 8.3.4;
- a pair of protective gloves; and
- eye protection (e.g. protective goggles).

⁽¹⁾ Not required for danger labels numbers 1, 1.4, 1.5, 1.6, 2.1, 2.2 e 2.3

8.1.5.3: Additional equipment required for certain classes:

- an emergency escape mask ⁽²⁾ for each member of the vehicle crew shall be carried on board the transport unit for danger label numbers 2.3 or 6.1;
- a shovel ⁽³⁾;
- a drain sea ⁽³⁾;
- a collecting container ⁽³⁾.

⁽²⁾ For example an emergency escape mask with a combined gas/dust filter of the A1B1E1K1-P1 or A2B2E2K2-P2 type which is similar to that described in the EN 14387:2004 + A1:2008 standard.

⁽³⁾ Only required for solids and liquids with danger label numbers 3, 4.1, 4.3 8 or 9.

 **A.D.R. 2019****8.1.5: Equipaggiamenti diversi e dispositivi di protezione individuale**

8.1.5.1: Ogni unità di trasporto contenente merci pericolose a bordo deve essere provvista di dispositivi di protezione generale e individuale secondo il paragrafo **8.1.5.2**. I dispositivi devono essere scelti secondo il numero dell'etichetta di pericolo delle merci a bordo. I numeri dell'etichette si trovano nel documento di trasporto.

8.3.4: Gli apparecchi d'illuminazione portatili utilizzati non devono avere alcuna superficie metallica suscettibile di produrre scintille.

8.1.5.2: Ogni unità di trasporto, deve conservare a bordo i seguenti equipaggiamenti:

- per ogni veicolo, un ceppo di ruota, di dimensioni adeguate alla massa massima lorda consentita del veicolo ed al diametro delle ruote;
- due segnali di avvertimento autoportanti;
- del liquido di risciacquo per gli occhi ⁽¹⁾;

e per ogni membro dell'equipaggio:

- un giubbotto fluorescente (simile ad esempio a quello descritto nella norma europea EN ISO 20471);
- un dispositivo portatile d'illuminazione conforme alle prescrizioni della sezione 8.3.4;
- un paio di guanti di protezione; e

- un dispositivo di protezione per gli occhi (es. occhiali protettivi)

⁽¹⁾ Non prescritto per i numeri d'etichetta di pericolo n. 1, 1.4, 1.5, 1.6, 2.1, 2.2 e 2.3

8.1.5.3: Dispositivo supplementare prescritto per alcune classi:

- una maschera di fuga ⁽²⁾ per ogni membro dell'equipaggio del veicolo deve essere a bordo dell'unità di trasporto per i numeri d'etichetta di pericolo n. 2.3 o 6.1;

- una pala ⁽³⁾;
- una protezione del tombino ⁽³⁾;
- un recipiente collettore ⁽³⁾;

⁽²⁾ Ad esempio, una maschera di fuga provvista di un filtro combinato gas/polveri del tipo A1B1E1K1-P1 o A2B2E2K2-P2 che è analoga a quella descritta nella norma EN 14387:2004 + A1:2008.

⁽³⁾ Prescritto solamente per le materie solide e liquide con i numeri d'etichetta di pericolo n. 3, 4.1, 4.3, 8 o 9.

 **A.D.R. 2019**
8.1.5 Équipements divers et équipement de protection individuelle

8.1.5.1 Chaque unité de transport contenant des marchandises dangereuses à bord doit être munie des équipements de protection générale et individuelle selon le 8.1.5.2. Les équipements doivent être choisis selon le numéro de l'étiquette de danger des marchandises à bord. Les numéros d'étiquette se trouvent dans le document de transport

8.3.4 Les appareils d'éclairage portatifs utilisés ne doivent présenter aucune surface métallique susceptible de produire des étincelles.

8.1.5.2 Toute unité de transport doit avoir à son bord les équipements suivants:

- une cale de roue par véhicule, de dimensions appropriées à la masse brute maximale admissible du véhicule et au diamètre des roues;
 - deux signaux d'avertissement autoporteurs;
 - du liquide de rinçage pour les yeux⁽¹⁾; et
- pour chacun des membres de l'équipage
- Un baudrier fluorescent (semblable par exemple à celui décrit dans la norme européenne EN ISO 20471);
 - Un appareil d'éclairage portatif conforme aux prescriptions de la section 8.3.4;
 - Une paire de gants de protection; et
 - Un équipement de protection des yeux (e.g lunettes de protection).

⁽¹⁾ Non prescrit pour les numéros d'étiquette de danger 1, 1.4, 1.5, 1.6, 2.1, 2.2 et 2.3.

8.1.5.3 Équipement supplémentaire prescrit pour certaines classes :

– Un masque d'évacuation d'urgence⁽²⁾ pour chaque membre de l'équipage du véhicule doit être à bord de l'unité de transport pour les numéros d'étiquette de danger 2.3 ou 6.1.

- Une pelle⁽³⁾;
- Une protection de plaque d'égout⁽³⁾;
- Un réservoir collecteur⁽³⁾;

⁽²⁾ Par exemple, un masque d'évacuation d'urgence pourvu d'un filtre combine gaz/poussières du type A1B1E1K1-P1 ou A2B2E2K2-P2 qui est analogue à celui décrit dans la norme EN 14387:2004 + A1:2008.

⁽³⁾ Prescrit seulement pour les matières solides et liquides avec les numéros d'étiquette de danger 3, 4.1, 4.3, 8 ou 9.

 **A.D.R. 2019**
8.1.5 Sonstige Ausrüstung und persönliche Schutzausrüstung

8.1.5.1 Jede Beförderungseinheit mit gefährlichen Gütern muss gemäss Unterabschnitt 8.1.5.2 mit Ausrüstungsteilen für den allgemeinen und persönlichen Schutz ausgestattet sein. Die Ausrüstungsteile sind nach der Gefahrzettel-Nummer der geladenen Güter auszuwählen. Die Gefahrzettel-Nummern können anhand des Beförderungspapiers bestimmt werden.

8.3.4 Die verwendeten tragbaren Beleuchtungsgeräte dürfen keine Oberfläche aus Metall haben, durch die Funken erzeugt werden könnten.

8.1.5.2 Die folgende Ausrüstung muss sich an Bord der Beförderungseinheit befinden:

- ein Unterlegkeil je Fahrzeug, dessen Abmessungen der höchsten Gesamtmasse des Fahrzeugs und dem Durchmesser der Räder angepasst sein müssen;
 - zwei selbststehende Warnzeichen;
 - Augenspülflüssigkeit⁽¹⁾ und
- für jedes Mitglied der Fahrzeugbesatzung
- eine Warnweste (z.B. wie in der Norm EN ISO 20471);
 - ein tragbares Beleuchtungsgerät nach den Vorschriften des Abschnitts 8.3.4;
 - ein Paar Schutzhandschuhe und
 - ein Augenschutz (z.B. Schutzbrille).

⁽¹⁾ Nicht erforderlich für Gefahrzettel der Muster 1, 1.4, 1.5, 1.6, 2.1, 2.2 und 2.3.

8.1.5.3 Für bestimmte Klassen vorgeschriebene zusätzliche Ausrüstung:

– an Bord von Beförderungseinheiten für die Gefahrzettel-Nummer 2.3 oder 6.1 muss sich für jedes Mitglied der Fahrzeugbesatzung eine Notfallfluchtmaske⁽²⁾ befinden;

- eine Schaufel⁽³⁾;
- eine Kanalabdeckung⁽³⁾;
- ein Auffangbehälter⁽³⁾.

⁽²⁾ Zum Beispiel eine Notfallfluchtmaske mit einem Gas/Staub-Kombinationsfilter des Typs A1B1E1K1-P1 oder A2B2E2K2-P2, der mit dem in der Norm EN 14387:2004 + A1:2008 beschriebenen vergleichbar ist.

⁽³⁾ Nur für feste und flüssige Stoffe mit Gefahrzettel-Nummer 3, 4.1, 4.3, 8 oder 9 vorgeschrieben.

A.D.R. SAFETY EQUIPMENTS

(ACCORDING TO A.D.R. 2019)

A.D.R. : THREE EQUIPMENT KITS FOR ALL CLASSIFICATIONS OF DANGER

ACCORDING TO THE CLASSIFICATION OF DANGER YOU ARE REQUIRED TO HAVE THE APPROPRIATE SAFETY EQUIPMENT THAT CONSIST OF ARTICLES REQUIRED BY A.D.R. 2019 REGULATION.

FOR EACH CLASSIFICATION WE HAVE AN EQUIPMENT KIT WHICH CONSISTS OF ALL THE REQUIRED ARTICLES WHICH ARE MANUFACTURED TO VERY HIGH STANDARD FOR YOUR SAFETY IN CRITICAL SITUATIONS.

CUSTOMIZED EQUIPMENT COMPOSITIONS AVAILABLE ON REQUEST: ARTICLES LISTED ON NEXT PAGES

A.D.R. : TRE SOLI MODELLI PER TUTTE LE CLASSI DI PERICOLO

A SECONDA DELLA CLASSE DI PERICOLO POTETE SCEGLIERE L'EQUIPAGGIAMENTO CORRISPONDENTE COMPOSTO DAI MATERIALI RICHIESTI DALLA NUOVA NORMATIVA A.D.R. 2019.

LA SCELTA DEI COMPONENTI SI BASA SU ARTICOLI DI ALTISSIMA QUALITA' CHE FANNO PARTE DELLA NOSTRA GAMMA DI PRODOTTI.

COMPOSIZIONI PERSONALIZZATE DISPONIBILI SU RICHIESTA: ELENCO ARTICOLI NELLE PAGINE SEGUENTI

A.D.R. : TROIS MODELES SEULEMENT POUR SATISFAIRE TOUTES LES CONDITIONS DES CLASSES DE DANGER.

SUR LA BASE DE CHAQUE CLASSE DE DANGER VOUS POUVEZ CHOISIR L'EQUIPEMENT CORRESPONDANT COMPOSE SUR LA BASE DES ELEMENTS INDIQUES PAR LA NOUVELLE NORME A.D.R. 2019.

LE CHOIX DES COMPOSANTS SE BASE SUR DES PRODUITS DE HAUTE QUALITE QUI FONT PARTIE DE NOTRE GAMME.

COMPOSITION PERSONNALISEE SUR MESURE : DANS LES PAGES SUIVANTES EST DISPONIBLE LA LISTE DES ARTICLES.

A.D.R. : DREI GEFAHRGUTKOFFER FÜR ALLE GEFAHRGUTKLASSEN

GEMÄSS DEN GEFAHRGUTKLASSEN, SIND SIE VERPFLICHTET DIE ENTSPRECHENDE SICHERHEITSAUSRÜSTUNG NACH DEN A.D.R. VORSCHRIFTEN 2019 MITZUFÜHREN.

FÜR JEDE GEFAHRGUTKLASSE HABEN WIR DIE ENSTPRECHENDE GEFAHRGUTAUSRÜSTUNG ZUSAMMENGESTELLT, DIE IHNEN EIN HÖCHSTMASS AN SICHERHEIT IN ALLEN KRITISCHEN SITUATIONEN GEWÄHRLEISTET.

AUF ANFRAGE PERSONALISIERTE KOMBINATIONEN VERFÜGBAR: SIEHE ARTIKELAUFLISTUNG AUF NÄCHSTE SEITEN

6880

6881

6882

CLASS 1 - 1.4 - 1.5 - 1.6 - 2.1 - 2.2 - 4.2
5.1 - 5.2 - 6.2 - 7 (A, B, C, E)

cod. 6880

A.D.R. bag contains:

- Nr. 1 Warning jacket EN 471 class 2
- Nr. 2 ECE - R27 warning triangles
- Nr. 1 Atex red handlamp with batteries
- Nr.1 Acid proof neoprene gloves
- Nr.1 Ventilated elastic glasses
- Nr.1 Eye rinsing solution 500ml with applicator included

For use with:

Explosive substances, flammable gases, non-toxic gases, spontaneous flammable substances, comburent or organic peroxides, biological danger, infected or putrescent matter and radioactive substance category I, II, III

Contenuto della valigia:

- Nr. 1 Giubbotto omologato EN 471 classe 2
- Nr. 2 Triangoli d'avvertimento ECE - R27
- Nr. 1 Torcia rossa Atex completa di batterie
- Nr. 1 Guanti in neoprene antiacido
- Nr. 1 Occhiale con fori laterali e fascia elastica
- Nr. 1 Soluzione salina da 500ml per lavaggio oculare completa di applicatore

Indicata per:

Sostanze esplosive, gas infiammabili, gas non infiammabili, sostanze infiammabili spontanee, combustibili o perossidi organici, pericolo biologico, materie infette o putrescenti e materiale radioattivo categoria I, II, III

Contenu du coffre:

- Nr. 1 Gilet de visibilité EN 471 cl. 2
- Nr. 2 Triangles ECE - R27
- Nr. 1 Lampe portable Atex avec batterie
- Nr. 1 Paire de Gants
- Nr. 1 Paire de lunette
- Nr. 1 Flacon de 500ml de produit lavant pour les yeux avec applicateur

Indiqué pour:

Matières et objets explosibles, gaz inflammables, gaz non inflammables non toxiques, matières spontanément inflammables, matières comburantes, peroxydes organiques, matières infectieuses et matières radioactives catégorie I, II, III

Kofferinhalt:

- Nr. 1 Warnweste EN 471 Kl. 2
- Nr. 2 Euro Warndreieck
- Nr. 1 Atex Taschenlampe mit Batterie
- Nr. 1 Schutzhandschuhe aus Gummi
- Nr. 1 Belüftete Schutzbrille mit Gummi
- Nr. 1 Augenspüllösung inkl. Okular 500ml

Umgang mit:

Explosiven, entzündbaren flüssigen Stoffen, nicht brennbares und giftiges Gas, selbstentzündliche feste Stoffe, brandfördernde Stoffe oder organische Peroxyde, biologische Gefahr, und radioaktive Stoffe Kategorie I, II, III

CLASS 2.3 - 6.1

cod. 6881

**A.D.R. bag contains:**

- Nr. 1 Warning jacket EN 471 class 2
- Nr. 2 ECE - R27 warning triangles
- Nr. 1 Atex red handlamp with batteries
- Nr.1 Acid proof neoprene gloves
- Nr.1 Ventilated elastic glasses
- Nr.1 Eye rinsing solution 500ml with applicator included
- Nr. 1 Full face mask with standard thread connector to EN 148/1 completed with combined filter

For use with:

Toxic gases and toxic substances

**Contenuto della valigia:**

- Nr. 1 Giubbotto omologato EN 471 classe 2
- Nr. 2 Triangoli d'avvertimento ECE - R27
- Nr. 1 Torcia rossa Atex completa di batterie
- Nr.1 Guanti in neoprene antiacido
- Nr.1 Occhiale con fori laterali e fascia elastica
- Nr.1 Soluzione salina da 500ml per lavaggio oculare completa di applicatore
- Nr. 1 Maschera pieno facciale con raccordo filettato EN 148/1 completa di filtro combinato

Indicata per:

Gas tossici e sostanze tossiche

**Contenu du coffre:**

- Nr. 1 Gilet de visibilité EN 471 cl. 2
- Nr. 2 Triangles ECE - R27
- Nr. 1 Lampe portable Atex avec batterie
- Nr. 1 Paire de Gants
- Nr. 1 Paire de Lunette
- Nr. 1 Flacon de 500ml de produit lavant pour les yeux avec applicateur
- Nr. 1 Masque nez bouche avec cartouche EN141A2B2E2K2-P2

Indiqué pour:

Gaz toxiques et matières toxiques

**Kofferinhalt:**

- Nr. 1 Warnweste EN 471 Kl. 2
- Nr. 2 Euro Warndreieck
- Nr. 1 Atex Taschenlampe mit Batterie
- Nr. 1 Schutzhandschuhe aus Gummi
- Nr. 1 Belüftete Schutzbrille mit Gummi
- Nr. 1 Augenspüllösung inkl. Okular 500ml
- Nr. 1 Ausatemventile mit Vorkammersystem nach DIN EN148-1 mit Filteranschluss

Umgang mit:

Giftigen Gasen und Giftstoffen

CLASS 3 - 4.1 - 4.3 - 8 - 9

cod. 6882

**A.D.R. bag contains:**

- Nr. 1 Warning jacket EN 471 class 2
- Nr. 2 ECE - R27 warning triangles
- Nr. 1 Atex red handlamp with batteries
- Nr.1 Acid proof neoprene gloves
- Nr.1 Ventilated elastic glasses
- Nr.1 Eye rinsing solution 500ml with applicator included
- Nr. 1 Aluminium folding spark-proof shovel
- Nr. 1 Cover sheet for drain
- Nr. 1 Acidproof disposable bag

For use with:

Flammable liquids, Inflammable solids, Flammable gases on contact with water, Corrosive substances and Generally dangerous

**Contenuto della valigia:**

- Nr. 1 Giubbotto omologato EN 471 classe 2
- Nr. 2 Triangoli d'avvertimento ECE - R27
- Nr. 1 Torcia rossa Atex completa di batterie
- Nr. 1 Guanti in neoprene antiacido
- Nr. 1 Occhiale con fori laterali e fascia elastica
- Nr. 1 Soluzione salina da 500ml per lavaggio oculare completa di applicatore
- Nr. 1 Pala pieghevole antisintilla
- Nr. 1 Lastra protezione tombini
- Nr. 1 Sacco antiacido monouso

Indicata per:

Inflammabili, solidi infiammabili, sviluppo di gas infiammabili a contatto con acqua, corrosivi e pericolosità generica

**Contenu du coffre:**

- Nr. 1 Gilet de visibilité EN 471 cl. 2
- Nr. 2 Triangles ECE - R27
- Nr. 1 Lampe portable Atex avec batterie
- Nr. 1 Paire de Gants
- Nr. 1 Paire de lunettes
- Nr. 1 Flacon de 500ml des produit lavant pour les yeux avec applicateur
- Nr. 1 Pelle pliable anti-étincelles
- Nr. 1 Plaque de protection d'égouts
- Nr. 1 Sac de récupération antiacides jetable

Indiqué pour:

Liquides inflammables, matières solides inflammables, matières qui, en contact avec l'eau, dégagent des gaz inflammables, matières corrosives et matières et objets dangereux divers

**Kofferinhalt:**

- Nr. 1 Warnweste EN 471 Kl. 2
- Nr. 2 Euro Warndreieck
- Nr. 1 Atex Taschenlampe mit Batterie
- Nr. 1 Schutzhandschuhe aus Gummi
- Nr. 1 Belüftete Schutzbrille mit Gummi
- Nr. 1 Augenspüllösung inkl. Okular 500ml
- Nr. 1 Klappspaten mit Funkenschutz
- Nr. 1 Schutzabdeckung für Straßenschächte
- Nr. Säurebeständiger Sack

Umgang mit:

Feuergefährlichen entzündbaren flüssigen Stoffen, entzündliche feste Stoffe, Entwicklung entzündlicher Gase bei Berührung mit Wasser, ätzende Stoffe und allgemeine Gefahr

EN471 classe 2

**Contenu du coffre:**

Nr. 1 Gants en PVC de 35 cm
Hydrocarbures
Nr. 1 Paire de lunettes
Nr. 1 Combinaison à capuche
avec protection NBC
Nr. 1 Masque nez/bouche
à doubles galettes
Nr. 2 Cartouches pour masque
Nr. 1 Gilet de visibilité jaune
EN471 Klasse 2

**Kofferinhalt:**

Nr. 1 PVC-Handschuhe 35 cm,
Kohlenwasserstoffe
Nr. 1 Belüftete Schutzbrille mit
Gummi
Nr. 1 NBC Schutzbekleidung
Nr. 2 Halbmaske ohne
Kombinationsfilter
Nr. 1 Filter für Halbmaske

CLASS 3 - A.D.R. Safety PPE Kit

cod. 6883

A.D.R. bag contains:

- Nr. 1 Ventilated elastic glasses
- Nr. 1 Eye rinsing solution 500 ml
- Nr. 1 Applicator for eye rinsing solution
- Nr. 1 PVC gloves 35 cm, 2 pcs - Hydrocarbons
- Nr. 1 Cover sheet for drains
- Nr. 1 Orange warning jacket EN471 class 2
- Nr. 1 Absorbent material, 2 kilos
- Nr. 2 Warning triangles ECE-R27
- Nr. 1 Reduced sparking handlamp
- Nr. 1 Aluminium folding spark-pro of shovel

Contenuto della valigia:

- Nr.1 Occhiale con fori laterali e fascia elastica
- Nr.1 Soluzione salina da 500ml
- Nr.1 Applicatore per soluzione salina
- Nr. 1 Guanti in PVC 35 cm, 2 pcs - Idrocarburi
- Nr. 1 Lastra protezione tombini
- Nr. 1 Corpetto omologato arancio EN471 classe 2
- Nr. 1 Materiale assorbente 2 kg
- Nr. 2 Triangoli d'avvertimento ECE - R27
- Nr. 1 Lampada portatile antiscintilla
- Nr. 1 Pala pieghevole antiscintilla

Contenu du coffre:

- Nr. 1 Paire de lunette
- Nr. 1 Flacon de 500ml
- Nr.1 Applicateur pour produit lavant pour les yeux
- Nr. 1 Gants en PVC de 35 cm, 2 pcs - Hydrocarbures
- Nr. 1 Plaque de protection d'égouts
- Nr. 1 Gilet de visibilité orange EN 471 classe 2
- Nr. 1 Matériel absorbant, 2 kg
- Nr. 2 Triangles ECE - R27
- Nr. 1 Lampe portable anti-étincelles
- Nr. 1 Pelle pliable anti-étincelles

Kofferinhalt:

- Nr. 1 Belüftete Schutzbrille mit Gummi
- Nr. 1 Augenspüllösung 500 ml
- Nr.1 Okular für Augenspüllösung
- Nr. 1 PVC-Handschuhe 35 cm, 2 Stück - Kohlenwasserstoffe
- Nr. 1 Schutzabdeckung für Straßenschächte und - röhre
- Nr. 1 Warnweste orange retroreflektierend EN 471 Klasse 2
- Nr. 1 Absorptionsmittel, 2kg
- Nr. 2 Warndreieck ECE - R27
- Nr. 1 Taschenlampe ex-geschützt
- Nr. 1 Klappspaten mit Funkenschutz

6805/E

Full face mask with standard thread connector to EN 148/1
 Maschera a pieno facciale con raccordo filettato EN 148/1
 Masque nez/bouche avec raccord EN148/1
 Ausatemventile mit Vorkammersystem nach EN 148/1

1x

The full face mask has been designed and manufactured to meet EN 136. The face mask is specially designed for use with any certified filter equippe with a standard EN 148/1 adapter. The performance achieved in the laboratory tests to check the degree or type of PPE protection are:

- heat resistance: satisfactory
- flammability: satisfactory
- head straps: satisfactory
- connections: satisfactory
- visor: satisfactory
- eyepiece and visor: satisfactory
- inhalation and exhalation valves: satisfactory
- air-tightness: satisfactory
- carbon dioxide content: 0,70%
- inalation breathing resistance: 30 l/min continuous flow: 0,25mbar
95 l/min continuous flow: 0,85mbar
160 l/min continuous flow: 1,85mbar
- exhalation breathing resistance: 160 l/min continuous flow: 2,00mbar
- internal seepage: satisfactory
- field of view: satisfactory
- binocular: 94,4%

Maschera a pieno facciale progettata e realizzata in ottemperanza alla Norma Europea EN 136. La maschera facciale è concepita per essere usata con qualsiasi filtro certificato con raccordo normalizzato secondo EN 148/1.

I rendimenti ottenuti negli esami tecnici diretti alla verifica dei gradi o delle classi di protezione degli EPI sono i seguenti:

- resistenza alla temperatura: soddisfacente
- infiammabilità: soddisfacente
- amese da testa: soddisfacente
- connessioni: soddisfacente
- visore: soddisfacente
- oculare e visore: soddisfacente
- valvole inalazione e esalazioni: soddisfacente
- ermeticità: soddisfacente
- contenuto in diossido di carbonio: 0,70%
- resistenza alla inalazione: 30 l/min flusso continuo: 0,25mbar
95 l/min flusso continuo: 0,85mbar
160 l/min flusso continuo: 1,85mbar
- resistenza alla esalazione: 160 l/min flusso continuo: 2,00mbar
- fuga verso l'interno: soddisfacente
- campo di visione: soddisfacente
- binoculare: 94,4%

La masque a été conçu et fabriqué suivant la Norme Européenne EN 136. La masque est conçu pour accepter tout filtre agréé possédant un raccord normalisé EN 148/1.

Les rendiments atteints lors des examens techniques destinés à la vérification des degrés ou types de protection des EPI sont les suivants:

- résistance à la température: satisfaisant
- inflammabilité: satisfaisant
- harnais de tête: satisfaisant
- connexions: satisfaisant
- viseur: satisfaisant
- oculaire et viseur: satisfaisant
- valves d'inhalation et d'exhalation: satisfaisant
- herméticité: satisfaisant
- contenu en dioxyde de carbone: 0,70%
- résistance à l'inalation: 30 l/min flux continu: 0,25mbar
95 l/min flux continu: 0,85mbar
160 l/min flux continu: 1,85mbar
- résistance à l'exhalation: 160 l/min flux continu: 2,00mbar
- fuite vers l'intérieur: satisfaisant
- champ de vision: satisfaisant
- binoculaire: 94,4%

Die Gesichtschutzmaske wurde unter Berücksichtigung der Europäischen Norm EN 136. Die Gesichtschutzmaske wurde zur Anwendung mit jedem zertifizierten Filter entworfen, der gemäß EN 148/1 genormt ist. Die bei den technischen Untersuchungen zur Verifizierung der Schutzgrade oder Schutzklassen der EPI (persönliche Schutzausrüstung) erzielten Leistungen sind die folgenden:

- Widerstand gegen die Temperatur: zufrieden stellend
- Entflammbarkeit: zufrieden stellend
- Kopfgurt: zufrieden stellend
- Verbindungen: zufrieden stellend
- Sucher: zufrieden stellend
- Okular und Sucher: zufrieden stellend
- Ventile der Ein- und Ausatmung: zufrieden stellend
- Dichtigkeit: zufrieden stellend
- Gehalt an Kohlendioxid: 0,70%
- Einatmungs-Widerstand: 30 l/min Dauerdurchfluss: 0,25mbar
90 l/min Dauerdurchfluss: 0,85mbar
160 l/min Dauerdurchfluss: 1,85mbar
- Ausatmungs-Widerstand: 160 l/min Dauerdurchfluss: 2,00mbar
- Entweichen nach Innen: zufrieden stellend
- Blickfeld: zufrieden stellend
- Binokular: 94,4%

6805/E1

Combined filter with thread connector to UNI EN 148/1
 Filtro combinato a vite unificata UNI EN 148/1
 Cartouche universelle UNI EN 148/1
 Filteranschluss mit Rundgewinde nach UNI EN148-1

1x

The filter has been manufactured basing on the relevant section of regulations UNE-EN 141:2001 and UNE-EN 143:2001. The filter is sold as a spare part for all amaskes with an EN 148-1 standardised thread.

Breathing resistance:

- at 30 l/min: 1,51mbar
- at 95 l/min: 5,97mbar

Combined filter for gases type A, B, E, K (EN 14387:2006 standard): organic vapours with boiling point higher than 65°C, inorganic gases, acid gases, sulphur dioxide, ammonia and its organic derivatives, mercury vapours and for dusts, fumes and mists.

Il filtro è stato prodotto rispettando le norme UNE-EN 140:2001 e UNE-EN 143:2001. Il filtro è venduto come ricambio di tutte le maschere con una filettatura normalizzata secondo la norma EN 148-1.

Resistenza respiratoria:

- a 30 l/min: 1,51mbar
- a 95 l/min: 5,97mbar

Filtro combinato per tutti i gas delle famiglie A, B, E, K (norma EN 14387:2006): vapori organici con punto di ebollizione >65°C, gas e vapori inorganici, diossido di zolfo e altri gas e vapori inorganici, ammoniacca e suoi derivati organici e per polveri, fumi e nebbie.

Le filtre est produit selon la normative UNE-EN 140:2001 et UNE-EN 143:2001. Le filtre est vendu comme pièce de rechange de tous les masques avec filet normalisé selon la norme EN 148-1.

Limites d'utilisation:

- à 30 l/min: 1,51mbar
- à 95 l/min: 5,97mbar

Filtre à gaz type A, B, E, K (EN 14387:2006 standard): gaz et vapeurs organiques avec point d'ébullition >65°C, gaz et vapeurs inorganiques, gaz acides, anhydride sulfureux, ammoniac et ses dérivés, poussières, fumée et brouillards.

Der Filter ist hergestellt auf die Normen UNE-EN 140:2001 und UNE-EN 143:2001. Die Filter wird als Ersatzteil für alle Masken mit genormten Gewinden, gemäß EN 148-1, verkauft.

Atemschutz:

- bei 30 l/min: 1,51mbar
- bei 95 l/min: 5,97mbar

Kombinationsfilter für Gase Type A, B, E, K (EN 14387:2006 standard): organische Dämpfe mit einem Siedepunkt von höher als 65°C, anorganische Gase, säurehaltige Gase, Schwefeldioxid, Ammoniak und seine organischen Derivate, Quecksilberdämpfe und für Staub, Rauch und Nebeldämpfe.

Technical information / Informazioni tecniche / Informations techniques / Technische Informationen

Body in mineralized resins – carbon
Light – Without maintenance

Function 10/30V
Low consumption 9 – 12W

European Homologation ECE R10
Impermeability IP 6K9K

Cover in shockproof PC
Duration of more than 100.000 hours

3 years international warranty

Corpo in resine mineralizzate – carbonio
Leggero – Senza manutenzione

Funzione 10/30V
Basso consumo 9 – 12W

Omologazione Europea ECE R10
Impermeabilità IP 6K9K

Cover in PC antiurto
Durata superiore a 100.000 ore

3 anni di garanzia internazionale

Corps en résines minéralisées – carbone
Léger – pas d'entretien

Fonction 10/30V
Faible consommation 9 -12W

Homologation Européenne ECE R10
Impérméabilité IP 6K9K

Capuchon en PC antichoc
Durée supérieure à 100.000 heures

3 années de garantie internationale

Gehäuse aus mineralisiertem Kunststoff-Kohlenstoff-Gemisch
Leicht und wartungslos

Betrieb: 10/30 V
Verbrauchsarm: 9-12 W

ECE R10 europäische Homologation
Undurchlässigkeit IP 6K9K

Abdeckung aus stoßfestem PC
Lebensdauer > 100.000 Stunden

3 Jahre international garantie

Technical information / Informazioni tecniche / Informations techniques / Technische Informationen

High quality leds with a regular light distribution
The light turns on gradually (PIR version)
Function Master - Slave (possibility to connect to a ceiling light with PIR - motion sensor (master) max 4 ceiling lights with 6 LEDs or 6 ceiling lights with 4 LEDs
Shockproof PC glass designed for strength and safety: no injuries in case of strikes (safety), eye protection and anti-glare for eyes (material: white glass - opal)
Compact - only 12.6mm thickness

Function 10/30V
Low consumption 9 - 12W
Lumen: 4-LED version 850 Lm - 6-LED version 1.250 Lm

European Homologation ECE R10
Impermeability IP 6K9K

Cover in shockproof PC
Life duration higher than 100.000 hours

3 years international warranty

Led di alta qualità con una distribuzione uniforme della luce
La luce si accende gradualmente (versione PIR)
Funzione Master - Slave (possibilità di collegare ad una plafoniera con PIR - sensore movimento (master) max 4 plafoniere a 6 led o 6 plafoniere a 4 led
Vetro in PC antiurto concepito per la resistenza e la sicurezza: no ferite in caso di colpi (sicurezza), protezione per gli occhi e anti-abbagliamento per gli occhi (materiale: vetro bianco - opale)
Compatta - Spessore di soli 12.6mm

Funzione 10/30V
Basso consumo 9 - 12W
Lumen: versione a 4 led 850 Lm - versione a 6 led 1250 Lm

Omologazione Europea ECE R10
Impermeabilità IP 6K9K

Calotta in PC antiurto
Durata superiore a 100.000 ore

3 anni di garanzia internazionale

Led de haute qualité avec une distribution uniforme de la lumière
La lumière s'allume progressivement (version PIR)
Fonction Master - Slave (possibilité de se connecter à un plafonnier avec PIR - détecteur de mouvement (master) max 4 plafonniers à 6 led ou 6 plafonniers à 4 led
Verre en PVC antichoc conçu pour la durabilité et la sécurité: pas de blessures en cas de coups (sécurité), protection et anti-éblouissement pour les yeux (matériel: verre blanc opale)
Compact - Epaisseur de seulement 12.6mm

Fonction 10/30V
Faible consommation 9 - 12W
Lumen: version à 4 led 850 Lm - version à 6 led 1250 Lm

Homologation Européenne ECE R10
Imperméabilité IP 6K9K

Capuchon en PC antichoc
Durée supérieure à 100.000 heures

3 années de garantie internationale

Hochleistungs-LED mit gleichmäßiger Lichtstreuung
Die Licht schaltet sich nach und nach ein (PIR Version)
Masterfunktion - Slave (Möglichkeit der Anbringung an eine Deckenlampe mit PIR - Bewegungssensor (Master), max. 4 Deckenlampen mit 6 LED's oder 6 Deckenlampen mit 4 LED's aus stoßfestem PC für maximale Sicherheit und Widerstandsfähigkeit: keine Verletzungs- und Blendgefahr für die Augen im Falle von Beschädigungen (Material: weißes Milchglas).
Kompakte Stärke von nur 12.6 mm

Betrieb: 10/30 V
Verbrauchsarm: 9-12 W
Lumen: 4 LED Version 850 Lm - 6 LED Version 1250 Lm

ECE R10 europäische Homologation
Undurchlässigkeit IP 6K9K

Abdeckung aus stoßfestem PC
Lebensdauer > 100.000 Stunden

3 Jahre international garantie

ENERGY EFFICIENT ROTATING BEACONS

23 Watt !

Technical information / Informazioni tecniche / Informations techniques / Technische Informationen

For agricultural vehicles
For earthmoving vehicles
For trucks / For trailers

Function 12/24V
Halogen bulb H21W A 12V or 24V
Homologated acc. to Reg. ECE 37

Reg. ECE 65: Amber
Reg ECE R10/03 Electromagnetic compatibility
Metallic parts conform to ROHS
Tested for flammability
Power consumption 23W

Cover in shockproof PC

3 years international warranty

Per trattori
Per mezzi movimento terra
Per camion / Su rimorchio

Funzione 12/24V
Lampada alogena H21W A 12V o 24V
Omologata Reg. ECE 37

Reg. ECE 65: Ambra
Reg ECE R10/03 Compatibilità elettromagnetica
Parti metalliche a norme ROHS
Testato per la combustibilità
Consumo 23W

Calotta in PC antiurto

3 anni di garanzia internazionale

Pour tracteurs
Pour véhicules de terrassement
Pour camions / Pour remorques

Function bivoltage
Ampoule halogene H21W A 12V ou 24V homologuée Reg. ECE 37

Reg. ECE 65: Ambre
Reg ECE R10/03 Compatibilité électromagnétique
Parties métalliques au norme ROHS
Testé pour combustibilité
Consommation 23W

Cabochon en PC antichoc

3 années de garantie internationale

Für landwirtschaftliche Fahrzeuge
Für Fahrzeuge am Boden
Für LKWs/Fuer Auflieger

Einsatz 12/24V
Halogenlampe H21W A 12V oder 24V
Zugelassen gemäss Reg. ECE 37

gem. ECE 65: Warnlampen
Reg ECE R10/03 elektromagnetische Verträglichkeit
Metallteile gemäss ROHS
Getestet gegen Entflammbarkeit
Strombedarf 23W

Hülle erschütterungsfest PC

3 Jahre international garantie
